TruSteel HD®
 *You Can See The Difference.*

**HIGH-RESOLUTION IMAGES OF REAL WOOD.
DIGITALLY PRINTED ONTO STEEL.
MADE IN THE USA.**

Exclusively brought to you by

TRU►STEEL HD® STANDARD IMAGES AND FINISHES.

Tru►Steel HD® from United Steel Supply is available in a variety of images, as well as custom looks. All printed images are protected by a UV-resistant, solvent-free clear coat.

Ask about available customization, such as varied-width planks, log designs, or bi-directional grain patterns.

DURABILITY MEETS REALISM

The look of real wood with the proven performance of steel. Introducing a new, innovative technology from United Steel Supply. Tru►Steel HD® uses a large-format digital printer to transfer ultra-high-resolution images of real wood onto steel. Our proprietary digital printing process utilizes millions of colors to accurately reproduce the knots, cracks, and grain patterns found in real wood, and it doesn't repeat a pattern for up to 32 feet!

Available in galvanized and Galvalume® steel sheet, Tru►Steel HD® comes in a variety of images from Natural Rough Sawn Cedar, to Barnwood Plank, to Realtree® Camouflage. Now you can have the beauty of wood and other finishes — with less maintenance.

INTENTIONALLY SUSTAINABLE

Because the electric arc furnace (EAF) steelmaking process uses up to 93% recycled content, Tru►Steel HD® not only ensures the use of sustainable materials, but also enhances the potential for your project to attain LEED certification.
